

Density & Abundance	Cuvier's beaked whale photo-identification off North-Eastern Sardinia (Caprera Canyon, central-Western Tyrrhenian Sea): preliminary results on site fidelity and population size	DA01
Density & Abundance	Are bottlenose dolphins ( <i>Tursiops truncatus</i> ) increasing in the North-Western part of the Pelagos Sanctuary (Mediterranean Sea)?	DA02
Density & Abundance	Abundance assessment of sperm whales ( <i>Physeter macrocephalus</i> ) in the North-Western portion of the Pelagos Sanctuary (NW Mediterranean Sea).	DA03
Density & Abundance	First line transect based abundance estimate of spotted dolphin in Canary Islands in the framework of MISTIC SEAS 2 project	DA04
Density & Abundance	Effects of season and diel and tidal phases on the occurrence of Sperm Whale and Long-finned Pilot Whale in the Irish Porcupine Bight	DA05
Density & Abundance	A preliminary photo-identification study of the individual bottlenose dolphins using the Northumberland coastline in northeast England	DA06
Density & Abundance	Abundance of Commerson's and Peale's dolphins in inshore waters of the Falklands Islands estimated by aerial survey	DA07
Density & Abundance	Occurrence of fin whale ( <i>Balaenoptera physalus</i> ) in the Azores archipelago: assessment on its migration behavior and first photo-ID catalogue of the area.	DA08
Density & Abundance	ObSERVE-ACOUSTIC: Sperm Whale Density and Abundance in Western Irish Waters	DA09
Density & Abundance	Decline in fin whale survival in the Gulf of St Lawrence: the effect of terminal bias and capture heterogeneity?	DA10
Density & Abundance	Acoustic, genetic and observational evidence indicate the presence of humpback whales ( <i>Megaptera novaeangliae</i> ) from both hemispheres in Cape Verdean waters during their respective breeding seasons	DA11
Density & Abundance	An updated abundance estimate for the endangered population of bottlenose dolphins ( <i>Tursiops truncatus</i> ) in Bahía San Antonio, Northern Patagonia, Argentina	DA12
Density & Abundance	First photo-identification study of false killer whales ( <i>Pseudorca crassidens</i> ) in the Azores Archipelago	DA13

Density & Abundance	Temporal variation of small cetacean presence along French coasts revealed by static acoustic monitoring	DA14
Density & Abundance	ABUNDANCE ESTIMATE OF AN INSHORE POPULATION OF BOTTLENOSE DOLPHINS IN IRELAND USING MARK-RECAPTURE AND CITIZEN SCIENCE	DA15
Density & Abundance	Presence of short-beaked common dolphin ( <i>Delphinus delphis</i> ) in the shallow waters of the south coast of Samos, eastern Aegean Sea.	DA16
Density & Abundance	BALEEN WHALE COMMUNITY OFF THE WEST OF IRELAND AS DETERMINED THROUGH STATIC ACOUSTIC MONITORING (SAM)	DA17
Density & Abundance	Mr. Liable: A resident male sperm whale in the Azores?	DA18
Density & Abundance	Demographical analysis of the endangered population of the harbour porpoise from the Sea of Azov using a Bayesian-based model	DA19
Density & Abundance	Preliminary mark-recapture analysis of sperm whale ( <i>Physeter macrocephalus</i> ) photo-id data from the Aeolian Archipelago (Italy)	DA20
